### ABOUT ME

I am a passionate and curious learner currently pursuing a degree in Artificial Intelligence after completing a diploma in Information Technology. I enjoy solving problems, working with new technologies, and continuously improving my skills. I am organized, detail-oriented, and able to adapt quickly to new environments. With a positive attitude and a strong work ethic, I am always eager to take on challenges and grow both personally and professionally.

### WORK EXPERIENCE

#### Sublime Enterprises

JUNE 2024 – AUGUST 2024

Intern – Web Development & Software Testing

- Assisted in both front-end and back-end development tasks, including designing web pages and integrating databases.
- Created user-friendly interfaces and supported testing processes to ensure functionality and performance. Collaborated with the team to troubleshoot technical issues and optimize workflows.
- Gained practical experience in coding, debugging, and working with development tools in a professional setting.

### EDUCATION

#### SAMATA VIDYA MANDIR

2022

Percentage : 90.80%

#### VIDYALANKAR POLYTECHNIC

2022- 2025

Diploma in Information technology

Percentage : 89.00%

#### USHA MITTAL INSTITUTE OF TECHNOLOGY

2025-2028

current SGPA : 9.28

### TECHNICAL SKILL

- Languages: HTML, CSS, JavaScript, Java, PHP, C , C++
- Database & Tools: MySQL, phpMyAdmin, DBMS
- Design - UI design using Figma Application
- Development Areas: Mobile Application Development
- Software: MS Office(powerpoint , word, Excel)
- Soft Skills: Communication, Leadership , Problem-solving, Time Management , Team collaboration

### PROJECTS

#### 1. RhythmDrop – Final Year Project

- Developed a mobile app and hardware device for creating and mixing beats interactively.
- Integrated Bluetooth connectivity for real-time music control.
- Used Java, Android tools, and embedded systems.

#### 2. Plagiarism Detection Using Machine Learning :

- Developed a web-based plagiarism detection system using Python and machine learning.
- Implemented TF-IDF vectorization with Random Forest and SVM models for text similarity detection.
- Technologies: Python, Flask, Scikit-learn, NLP, Machine Learning

### EXTRACURRICULAR ACTIVITIES

- Google Cloud Program: Successfully completed the cloud track and earned an official participation certificate.
- Hackathon Participation: Collaborated in a fast-paced team environment to build and prototype a technical solution.
